VR SIDDHARTHA ENGINEERING COLLEGE, VIJAYAWADA
Department of Computer Science and Engineering

Title of the Project

23CS7552: B. Tech Mini Project (0th/1st/2nd/End Sem. Review)

Month DD, YYYY

Batch No: __

Batch Members

Student 1 Name (Reg. No. 1)

Student 2 Name (Reg. No. 2)

Student 3 Name (Reg. No. 3)

Student 4 Name (Reg. No. 4)

Under the Guidance of

Dr./Mr./Mrs. Name of the Faculty

Designation

Abstract

Instructions

1. **Write the abstract between 150 and 250 words. Do not italicize your text.**
2. **It must be a paragraph that emphasizes your work/ contribution.**
3. **Highlight important words in the abstract, which will help you during your presentation.**
4. **Flow must be maintained in the abstract.**

Keywords:

1. **A minimum of five to a maximum of eight keywords separated by commas or semicolons.**
2. **Keywords are words that capture the essence of your project work.**
3. **Do not Italicize your text.**

Presentation Outline

1. Research Domain
2. SDG Categories
3. Aim and Motivation
4. Research Questions
5. Title Justification
6. Objectives
7. Scope
8. Timeline Chart
9. References

1. Research Domain

Instructions

1. **Research Domain refers to the broad area of study in which the proposed project is situated.**
2. **Select a domain that is relevant to the project title, objectives, and proposed methodology.**
3. **Clearly mention the primary research domain and, if applicable, the interdisciplinary/sub-domain.**
4. **Choose the domain based on the technical focus, application area, and expected outcomes of the project.**

Example:

- **Primary Domain:** Artificial Intelligence and Machine Learning
- **Sub-Domain:** Computer Vision and Deep Learning
- **Application Area:** Intelligent Transportation Systems and Road Safety

2. SDG Categories

Instructions

1. **<u>Select the SDG(s)</u> directly aligned with the project objectives and outcomes.**
2. **Mention the SDG number and official title.**
3. **Select only relevant and justifiable SDGs based on the project's impact.**

3. Aim and Motivation

Instructions

1. **Aim is a statement of intent. This is usually written in broad terms. It lays out what you hope to achieve at the end of the project.**
2. **Motivation behind a project can inspire, encourage, and stimulate individuals and project teams to achieve great accomplishments.**
3. **Highlight the major words in the aim and motivation paragraphs. It must be your own words.**
4. **You can use bullet points or a numbered list to write aim and motivation behind this project.**
5. **Do not write more than 90 words. Do not Italicize your text.**

4. Research Questions

Instructions

1. **A research question is a question that a research project sets out to answer. Good research questions seek to improve knowledge on an important topic and are usually narrow and specific.**
2. **A good RQ speaks about the problem statement, adds focus to the problem statement, guides data collection and analysis, and sets context of research.**
3. **These are less narrow, more focused, and more subjective in nature.**
4. **Your project must contain at least three research questions. [*Try to limit your research questions to three*].**
5. **Refer to https://www.scribbr.com/research-process/research-question-examples/ for framing your research questions.**
6. **Must be numbered. Neither make your texts bold nor italicize them.**

5. Title Justification

Instructions

1. **Justification of project title is simply validating why the proposed title is suitable for the project or what makes it a better alternative than other possible suggestions.**
2. **Highlight the major words in the title justification paragraph. It must be your own words.**
3. **You can use bullet points or a numbered list to justify your project title.**
4. **Do not write more than 90 words. Do not Italicize your text.**

6. Objectives

Instructions

1. **Project objectives are the noteworthy steps needed to complete a project.**
2. **Project objectives must be measurable and contain key performance indicators that will be used to assess a project's overall success.**
3. **Must be numbered. Neither make your texts bold nor italicize them.**
4. **Your project must contain at least *three* and a maximum of *four* objectives.**
5. **Objectives should not be broad but specific to your work.**
6. **Initialize each sentence with the word 'To'.**

7. Scope

Instructions

1. **Scope is a way to set boundaries on your project and define exactly what goals, deadlines, and project deliverables you'll be working towards.**
2. **Clearly specify at least two scopes of your projects. The sentence should be neither too short nor too long.**
3. **Must be numbered. Neither make your texts bold nor italicize them.**
4. **It must be restricted to current project implementation.**

8. Timeline Chart

Table No. : Timeline chart for Mini Project work

S. No.	Action Plan	Time Plan			
		2023			
		JAN	FEB	MAR	APR
1	Survey on existing implementations				
2	Stake holders' Input				
3	Requirement Analysis and Methodology				
4	Data Collection and Preprocessing				
5	Model Implementation				
6	Evaluate performances of proposed deep learning models				
7	Design and Development of user interface				
8	Backend Database Schema defination, design and Implementation				
9	Software Deployment				
10	Report Writing				
11	Article Writing and Submission				
12	Monthly Review				

Instruction: **The content of this table can be modified based on your project work. If actions 7, 8, and 9 are part of your project, those must be reflected in your UML diagrams, functional and non-functional requirements.**
